The figure displays eight water quality parameters, each represented by a semi-circular gauge chart with a needle and a digital readout. The parameters are arranged in a 2x4 grid. Each gauge includes a scale, a needle, and a digital readout showing the current value, a status (NORMAL), and a timestamp.

The figure displays eight gauge charts arranged in a 2x4 grid, each representing a different water quality parameter. Each gauge has a semi-circular scale with a needle pointing to the current value. The current value is also displayed in the center of the gauge, along with the status 'NORMAL' and a timestamp.
